“THE GLOBAL ECONOMY WAS FALLING OFF A CLIFF IN A SYNCHRONIZED CONTRACTION OF UNPRECEDENTED RAPIDITY!”

On our forthcoming 32nd PIIE General Membership Gathering, we will again assemble the community of industrial engineering graduates and practitioners nationwide together with our invited guest speaker.

During this event, our guest speaker, Mr. Gerald Albert G. Antonio, a director of Advanced Contact Solution Center Academy, shall discuss the IE practitioner's role during the economic maelstrom. The topic is “IE in Action in Times of Crisis”. This is indeed a very timely topic as our economy continues to struggle to keep afloat during this so called Economic Armageddon. We wish to solicit answers to the question – “What happens to IEs during this adverse situation?”

Our gathering shall be punctuated by the oath taking of the **1st batch of successful examinees to become Certified Industrial Engineers (CIE)**. PIIE thru its Industrial Engineering Certification Board (IECB) administered the 1st certification examination of industrial engineers last May 23, 2009. The passing rate for this exam is 50%. This program aims to further strengthen the practice of industrial engineering in the country and at the same time generate quality graduates to address the expectations of the industry. Developed nations have attributed repeatedly their success through their adherence to Industrial engineering tools, discipline and competencies. The IE Certification Examination shall be held annually.

We look forward to your active support by virtue of your participation and confirmation in our very special gathering specially in honoring our successful examinees.

Join us on August 28, 2009 to be held in Mandarin Oriental Hotel, Makati City. Program starts at 6:00pm. Don't forget to visit our website for more exciting announcements for this exciting event.
