

MITSUBISHI MOTORS PHILIPPINES CORPORATION (MMPC) [confirmed]

Established in 20 February 1963 as Chrysler Philippines Corporation, Mitsubishi Motors Corporation (MMPC) is the longest staying automotive company in the country offering world class products and services. In 2013 the company commemorated its 50 years anniversary. This milestone is a testament of MMPC's rich history of bringing in the Philippines state of the art technology in automotive manufacturing. MMPC now markets over 16 types of vehicles in the Philippines.

With more than 50 years of automotive manufacturing under its belt and being one of the motoring industry's vanguards, Mitsubishi Motors Philippines Corporation (MMPC) in 2015 inaugurated their 21-hectare facility in Greenfield Automotive Park, Sta Rosa, Laguna.

MMPC just upgraded the new facility with high technology equipment to improve the assembly process and to maintain the quality of the parts in line with Mitsubishi's global standards.

LUFTHANSA TECHNIK PHILIPPINES (confirmed)

Founded in the year 2000 as a joint venture of Lufthansa Technik AG and Philippine aviation service provider MacroAsia Corporation, Lufthansa Technik Philippines offers a wide range of aircraft maintenance, repair and overhaul (MRO) services to customers worldwide. LTP's hangar is located inside the Philippines' largest air force base, the Villamor Air Base, and next to international airport, the Ninoy Aquino International Airport (NAIA) as well as the ICPR Conference venue Marriott Hotel Manila.

The company heavily focuses on base maintenance checks for the A320, A330/A340, and A380 aircraft types. It has 8 hangar bays and workshops which have been designed according to the latest industry standards in order to support aircraft maintenance, major modifications, cabin reconfigurations, engine maintenance and painting.

ANALOG DEVICES PHILIPPINES (tentative)

Analog Devices Incorporated (ADI) is a world leader in the design, manufacture, and marketing of a broad portfolio of high performance analog, mixed-signal, and digital signal processing (DSP) integrated circuits (ICs) used in virtually all types of electronic equipment.

Used by over 60,000 customers worldwide, ADI signal processing products play a fundamental role in converting, conditioning, and processing real-world phenomena such as temperature. The company is located at Gateway Business Park, Javalera General Trias, Cavite.
