

Taal Volcano Crater Trek (7 Hours)

First you drive up to 2,250 feet for a panoramic view of a huge lake with a volcano island. Then go down to a lakeshore resort and board a motorized outrigger for a 20 minute ride to the volcano island. Assisted by an island coordinator; trek up through a wide expanse of hardened black lava landscape till you reach the rim of the actual crater of the world's smallest volcano (728 ft high). Visitors may rent a horse to ride up for the close up view of the island volcano with quite a history of volcanic eruptions. When you return to the shoreline resort enjoy a sumptuous lunch.

(Note: Horse rental on personal account.)

Pump boats going to Taal Volcano
